## PROFESSIONAL SUMMARY

I'm Abhiseelan, an aspiring application and website developer passionate about building responsive, user-centered digital solutions. Skilled in designing and deploying dynamic apps and websites, integrating backend systems and APIs to create seamless, scalable products. Eager to leverage technology and creativity to drive innovation and business growth in a collaborative environment.

---

## EDUCATION

**Bachelor of Technology** – Artificial Intelligence and Data Science

**Excel Engineering College** 2022 – 2026

**CGPA: 8.5**

**HSC – Vani Vidyalaya (2022) – 83.3%**

**SSLC – Vani Vidyalaya (2020) – 89%**

---

## INTERNSHIP

**Breakout Zone**

**2024-2025**

**Flutter & UI Design Intern**

- Developed and refined Flutter UI components using Material Design principles.
  - Designed mobile and web UI prototypes in Figma, improving layout consistency and usability.
  - Assisted in integrating application features and understanding deployment workflows.
  - Collaborated with cross-functional teams to enhance user experience and interface performance.
- 

## CERTIFICATIONS

- Introduction to Flutter - Udemy
- Dart programming - Udemy
- Android Application development - Great Learning
- MongoDB Java developer path - MongoDB
- Application development - Breakout zone

## PROJECTS

### **1. Sign X – Voice-to-Sign Language Interpreter**

- Developed a cross-platform Flutter application that converts spoken language into sign language output.
- Designed to improve communication accessibility by translating speech into visual sign representations.
- Implemented speech recognition, translation logic, and sequential video playback for sign language words.
- Tech Stack: Flutter, Dart, Firebase, Speech Recognition / Translator

### **2. Path-X – Career Guidance & Skill Development Application**

- Built a career guidance application that helps users identify job roles best suited to their interests and skills.
- Provides personalized skill improvement recommendations based on selected career paths.
- Offers direct links to relevant online courses to support continuous learning and upskilling.
- Tech Stack: Flutter, Dart, Firebase.

### **3. Beyond Barriers – Gamified Language Learning Application**

- Developed a language learning and training application that enables users to learn new languages through a game-based approach.
- Focused on interactive learning methods to improve engagement, consistency, and retention.
- Designed structured learning levels with an intuitive and user-friendly interface.
- Tech Stack: Flutter, Dart, Firebase, UI/UX (Figma)

---

## SKILLS

### **Technical Skills**

- Flutter
- Dart
- Firebase
- State Management (Basics)
- UI/UX Design – Figma

### **Soft Skills**

- Leadership
- Critical Thinking
- Decision Making

---

## EXTRA CURRICULAR ACTIVITIES

- Chess
- Puzzle Solving
- Redstone Engineering

---

## LANGUAGES KNOWN

- Tamil
- English
- Hindi(Intermediate)
